

IPS Data Processing & Central Office Shredders

IPS511 IPS513
IPS512 IPS523

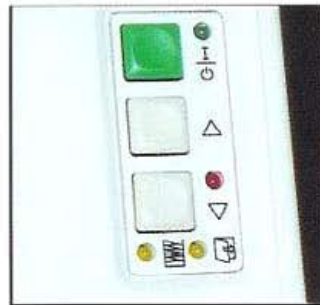

The IPS 500 standard model series data processing shredders feature 16" infeed throat widths and cutting cylinder length with 1 1/2 hp drive motors. Console units feature hands-free control electronics with automatic start/stop photo-cell actuation; user friendly touch sensitive key pad; auto-reverse, anti-jam sensor; audible/visual alarm indicators for bag full, door open, anti-jam safety limits. Composite cabinet construction provides "whisper quiet" operation. The models IPS513 and IPS523 crosscut shredders are **D.O.D. spec** 1/32" x 7/16" particle size, **NSA approved** destruction devices for "Classified" Information through Top Secret (**INFOSEC, COMSEC, SCI, CRYPTOLOGIC**, etc.). The IPS500 stand model shredder features manual on/off/reverse controls and a bag full limit switch with automatic shut off.

3 Tier Forms Rack

All IPS 500 & 600 series shredders are provided with a single tier forms feed rack; optional three tier forms rack available (see accessories page 8).

Hands-Free Control

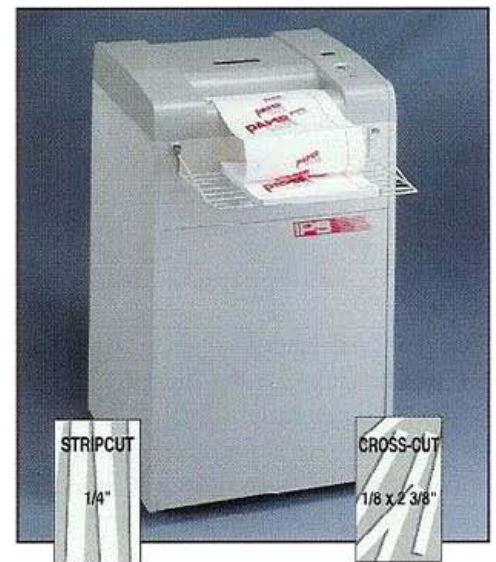

IPS500

The IPS500 stand model shredder is one of the fastest infeed shredders on the market today, with an 80 feet per minute amazing paper feed rate! The 16" infeed throat is ideal for long run unburst 14 7/8" computer forms shredding.

IPS621 IPS622

For greater output capacity from a 16" office shredder, the IPS621 and IPS622 make for excellent "central office" models. Furnished with a 2.0 hp gear drive, and extra large 50 gallon capacity cabinet receptacle, the IPS600 series shredders are designed for high volume paper applications, serving multiple offices within a department. The 600 series feature hands free, automatic start/stop via photocell sensors; auto reverse anti-jam; audible/visual alarm indicators for door open, bag full, and anti-jam safety sensors.
