A tough baler that doesn't have to be hidden away

Orwak 3300 is the result of over 30 years of experience in the market. It is safe and reliable for the operator and fast and powerful for efficient operation. Orwak 3300 is easy to handle.

Different types of materials, such as paper or plastics, are easily loaded and compacted.

Control panel with digital display for user-friendliness and ease of operation

Low height means easy installation, no need for reassembly. Orwak 3300 has the same dimensions on delivery as for installation and operation. Flexibility means that the baler is easy to relocate using a pallet truck today or in 10 years time. There is no access to moving parts during the operation. Model 3300 requires little floor space and has a reliable two-stage door opening system.
